Waste Separation Guidelines

Phu Quoc Source Separation Pilot Program

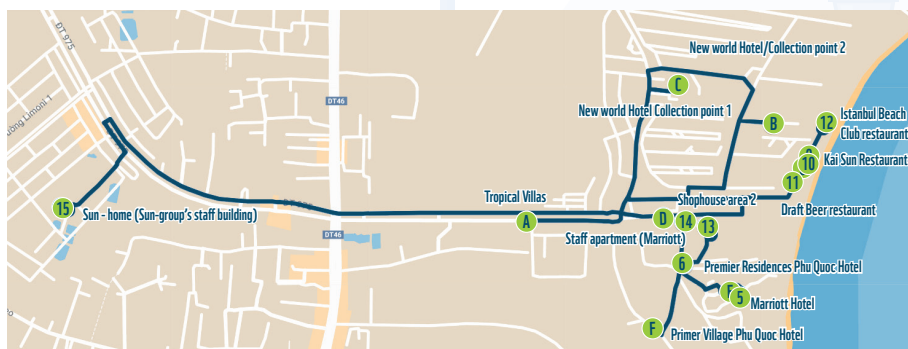

The first collection will begin on November 3, 2024

01 | Who Needs to Participate in the Pilot Program?

Any commercial accounts located along these two waste collection routes

Map of Duong Dong Route

Map of An Thoi Route

For further information, these maps can be found by following one of these QR codes.

Duong Dong Pilot Route

An Thoi Pilot Route

02 | What Materials Need to be Separated?

ORGANIC MATERIALS (BIODEGRADABLES)

1. Raw food
2. Cooked food
3. Landscape Debris (plants, flowers, grass, leaves, branches, wood, etc.)
4. Coffee/Tea grounds
5. Other biodegradable plants (sugar cane, coconuts, rice hulls, etc.)

RECYCLABLE MATERIALS

TOP 5 IN THE BIN

1. Plastic bottles and containers
2. Beverage cans
3. Food cans
4. Cardboards
5. Paper

03 | How to Store Materials?

Place stickers on as many existing bins as needed

04 | When will Materials be Collected?

Organic Waste

1. Drain as much liquids from the material as you can.
2. Waste generators are encouraged to contact local farmers to recover cooked food waste for animal feed.
3. Place materials into bins loose (unbagged) when possible. Acceptable to use plastic bags for unavoidably wet materials.
4. Waste in bins labeled "Organic Waste Only" will be collected by the City 3 days each week on **Mondays, Wednesdays and Fridays**

| Mon | Tue | Wed | Thu | Fri | Sat | Sun |
|-----|-----|-----|-----|-----|-----|-----|
| ✓ | | ✓ | | ✓ | | |

Recyclable Waste

1. Empty and rinse containers.
2. Place materials into bins loose (unbagged).
3. Waste in bins labeled "Recyclable Waste Only" will be collected by the City 1 day each week on Wednesday

| Mon | Tue | Wed | Thu | Fri | Sat | Sun |
|-----|-----|-----|-----|-----|-----|-----|
| | | ✓ | | | | |

Residual Waste

Any waste not meeting the requirements of the other two waste streams (organic waste and recyclable waste) will be collected by the City according to the contracted schedule.

05 | How to Separate Efficiently?
